Why the Press?

1 Press engages – while reading we concentrate. Therefore, we can easily take our mind off things. It is a kind of relaxation we yearn for.

2 Press builds credibility – through constant contact with our readers we know how to advise and make our readers trust us. It is the special bond and trust between the reader and the magazine that is created on the basis of a discussion (e-mails, letters, comments, dispute) and which results in strengthening credibility and advertising message.

3 Press enhances brand awareness – thanks to immense possibilities of presenting a product in press, the enhanced content of advertisements not only allows the reader to get to know the product better but also strengthens its image.

4 Press reaches target groups – on the basis of wide variety of topics, consumer and readership research, it is easy to create target groups and introduce products in accordance with a group's needs.

5 Press is creative – except a wide variety of formats that the press has to offer, it also provides advertising forms such as: inserts, glues inserts, bands, scented strips, folds and many others within the scope of its immense possibilities.

6 Press builds intimacy – as the research show, most women associate reading with relax and intimacy. This is what clearly improves perceiving the message of an advertisement. Moreover, a magazine always engages into a discussion; what's new, what's interesting, what worth recommending.

7 Press does not irritate – the research show that TV audience is irritated by the amount of emitted commercials. 80 percent of respondents considered commercials to be the most irritating whereas advertisement in press is regarded to be irritating by only 8 percent.
